MEMORANDUM FOR: Chairman, ICRS

SUBJECT : ICRS Indochina/Laos Requirements Review

REFERENCE : Chairman, WSAG Working Group C, Memorandum, 19 September 1973 (TCS-059-73)

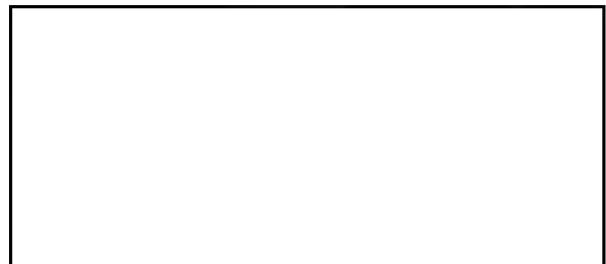

1. I have discussed the action recommendation in paragraph 12 (b) of reference memo with the Chairman, COMIREX, and the DIA and CIA COMIREX members this date. It was agreed that COMIREX should begin now the necessary studies and review to prepare a coordinated community assessment of requirements options and the impact of various projected satisfaction levels.

2. The Chairman requests that you undertake this task through ICRS as a matter of priority, and that you work closely with DoD elements involved in developing collection asset employment options. This topic will be scheduled for discussion at the COMIREX 27 September meeting and a status report on ICRS action to date would be useful at that time.
